

## F-SECURE MOBILE SECURITY

### Complete protection for your smartphone or tablet.

Your everyday life consists of a lot of things done online – not only at home, but anywhere you go. More and more, smartphones and tablets are the key to everything we do and share online, and security on the go is just as important as security at home.

#### Ensures safe browsing and safeguards your identity online

F-Secure Mobile Security identifies which websites are safe to enter and which you should avoid. Harmful sites designed to spread malware or to steal your online identity, such as banking details, are automatically blocked to ensure a safe online experience.

#### Helps to lock, find and erase your lost device

Find your missing device, or the person holding it. It's simple to locate the missing device on an online map or activate a loud alarm to find it nearby - even if it's on the silent mode. You can also lock and erase your device remotely to make sure that your sensitive information is not falling into wrong hands. Want to stop the thief? When someone changes the SIM card, Theft Control locks the phone automatically and the thief's phone number is reported to you. F-Secure Mobile Security also helps you to locate a person or a place.

#### Parental Control

With the help of Parental Control content monitoring, you can be sure that your children are not exposed to unsuitable or harmful web content.

### Key Features

- Ensures safe browsing and safeguards your identity online
- Protects your children from unsuitable web content and applications
- Blocks unwanted calls and SMS/MMS messages
- Helps to locate a missing device
- Helps to lock and erase your lost device
- Protects against harmful apps, malware and viruses

## Awards

F-Secure Mobile Security:  
AV-TEST, "Excellent performance" in  
Android mobile antivirus test,  
March 2012

## Easy to Install and Use

F-Secure Mobile Security is extremely easy to install and use.

## The Fastest Protection Against All Threats

Frequent automatic updates and advanced DeepGuard cloud computing technology ensure the fastest protection against all new threats. Immediate reaction times and fast cures during new and emerging threats are guaranteed by F-Secure Labs working 24 hours a day worldwide.

## Software in Your Language

F-Secure Mobile Security has a clear user interface, including an easily accessible electronic manual. Both the software and electronic manual are available in your language.

## Supported operating systems

Android, Symbian

Tens of millions of people trust F-Secure to protect their data at home, in the office and on their mobile devices.
